The Dirt.Simple Express - November/December 2009

New features in Grademodel . . .

The newly released GradeModel 1.57 contains several new features including:

- Google Earth Export
- Integrated email support
- Native PDF report writing
- Cross Section PDF match line support
- An improved guide system

Grademodel users with a current AGTEK Support subscription can download it here:
<http://www.agtek.com/Programpage.asp?Program=GradeModel>.

To use the Google Earth Export feature:

1. Launch GradeModel and open your job. The job must have benchmarks with Lat and Long coordinates entered.
2. Switch to Plan View mode.
3. Select **File>Export KMZ**.
4. Name the file, select a location and click save. When you click save, Google Earth automatically opens and displays the information in the KMZ file.
